Commissioner of Land Revenue

Resolution
Reference.

Read the following:-

Letter from E.M. Gawne Esq., I.C.S., Collector of South Kanara, No. Ref. B-3-2644/33 dated 3rd July 1933.

REFERENCE.

In their order No. 752 Mis. Revenue dated 16-4-1930, the Government sanctioned the alienation of 18.73 acres of land in Puttur village, Udipi taluk in favour of the Depressed Classes Mission for the purpose of an agricultural settlement for the depressed classes. Under condition (2) of paragraph 2 of the G.O. the work connected with the settlement should have been completed within three years from the date of the grant. The time expired on 16-4-1933

A sketch of the land is enclosed. The portion hatched blue in the sketch is the land occupied by five Koragar families; the sixth house being vacant since May last. In these portions there is cultivation by the Koragars though the extent cultivated in each plot varies in individual cases. The portion hatched red has been planted with cocoanut and other fruit bearing trees as a communal effort. The school and the hostel are situated in the portion hatched red and blue in the sketch. S.No. 227-1F is the land in which more huts are proposed to be built this year. S.No. 228-3A remains undeveloped for want of funds. The completion of the new school building under construction is also delayed for the same reason.

2. The Collector after an inspection of the sites in question reports that the lands are intended not for an ordinary colony of Adi-dravidas but for Koragars, that they are below the ordinary depressed classes to such an extent that the depressed classes children will not even share the same schools with them, that they are not agriculturists and that all the adult occupants of the huts which the Mission has erected are employed by the Taluk Board, Udipi as sweepers. Considering the difficulties the Mission has to face, the Collector considers that the colony is faring as well as could be expected and that the Mission may now be considered to have complied with the conditions of the grant.

3. S.No. 227-1-F measuring 5.31 acres and S.No. 228-3A measuring 4.74 acres still remain undeveloped. As more than half of the extent alienated to the Mission still remains unused it cannot be said that the Mission has completed the scheme. The Board considers it desirable that an extension of time for two years should be granted to the Mission for the completion of the scheme. The fact that Government are watching the development of the scheme will also serve as an incentive to the Mission to complete the scheme as early as possible.

for Secretary.

To the Secretary to Government, Revenue Department with a sketch paras. 1 to 3 only.
To the Collector of South Kanara - para. 4 only.
